From: Kennedy Peter <pkennedy@facil.umass.edu>

The Morrill bridge work will finally start this coming Thursday, according to the contractor. That means that the bridge between IV North and IV South will be shut down to pedestrian traffic and the doors will have signage redirecting people to the stairwells. The first floor doors will not be affected during the first phase and will remain open. More information will be shared when a schedule is received from the contractor later in the week.

Thank you for letting your people know.

Peter K.
